HIGHLIGHTS

Research

I am dedicated to building artificial intelligence (AI) methods to accelerate scientific discovery in medicine, with a focus on AI-driven literature research [1] [2], data science research [3], and clinical research [4].

My research has been featured by Nature, NIH News, POLITICO, Azure Government, etc.

Startup

I cofounded Keiji AI since 2025, dedicated to building TrialMind, an AI agent platform for clinical trials [Demo Demoi, Demoi]. Our product is now used by leading pharamaceutical organizations, including Medidata, Regeneron, Takeda, Abbvie, Guardant Health, etc.
